@ vineyfunde@gmail.com

https://www.linkedin.com/in/vinay-funde

Nagpure, Maharashtra

## SUMMARY

B.Tech in computer science with a CGPA of 8.25 in academics. Have knowledge of C#, C++, HTML, CSS, JavaScript, SQL Server, Bootstrap, WordPress, Adobe Photoshop Core Java, and Advanced Java. Ability to design, develop, and maintain a web application

## INTERSHIPE

### Full Stack Development

#### Slash Mark

01/2024 - Present Nagpur

- At Slash Mark, we offer a 3-month internship programme that includes basic training and mini- and major-project-based experiences. Upon successful completion of the internship, each intern is required to prepare and submit a presentation.

### Web Development

#### Next24tech Technology & Services

03/2023 - 04/2023 Nagpur

- In which I learned about the website design and database connectivity to the website and server and created various website projects.

### AWS DevOps Engineer

#### Red Hat Academy

06/2022 - 08/2022 Nagpur

- Cloud and Dev Ops Engineering (Linux and Ansible Automation) Virtual Internship. In which we create an AWS server, we run Windows and Linux OS on that server and create websites on that server that run on it.

## PROJECTS

### Hospital Management System Web Application

10/2023 - 12/2023

- Tech Stack: HTML, CSS, JavaScript, Bootstrap, SQL, Java-Servlet, JSP, and JDBC
- The hospital management system is an application in which users can get doctor appointments online from any specialist doctor, and doctors can see their daily appointments and attend them. Hospital administrators can manage all doctor and patient appointments.

### Unite Gymnasium For Daily Routing Web Application

06/2023 - 10/2023

- Tech Stack: HTML, CSS, JavaScript, Bootstrap, SQL, ASP.NET MVC.
- A responsive full-stack website that allows users to purchase a single fitness pass to gain access to all connected health clubs or studios. Owners of gyms can connect with Unite Gymnasium by registering their facility.
